

INVITATION

EUPAVE 4th workshop on Best Practices in Concrete Paving **“Hydraulically Bound Base Layers & Roller Compacted Concrete Pavements”**

Tuesday, 18 June 2019 from 13:30 till 18:30

Thon Hotel EU, Rue de la Loi 75, 1040 Brussels (Belgium)

EUPAVE, the European Concrete Paving Association, invites you to its 4th workshop on Best Practices in Concrete Paving entitled “Hydraulically Bound Base Layers & Roller Compacted Concrete Pavements” on Tuesday 18th, June 2019 from 13:30 to 19:00 in Brussels.

Various topics will be discussed over the day starting with hydraulically bound base layers, a general introduction on Roller Compacted Concrete (RCC) and the promotion of RCC across Europe. The situation of RCC in Turkey and the market of RCC in the U.S will also be presented.

This workshop will gather experts who have an interest in RCC in particular. Participants will have the unique opportunity to exchange and discuss the challenges and difficulties experienced in that field.

Each participant will receive a copy of EUPAVE’s new publication “Roller compacted concrete: making concrete pavements available to the whole pavement building industry”.

REGISTRATION

The event is free for EUPAVE Members and Partners. For external participants, the registration will be confirmed upon receipt of the EUR 150 (excl. VAT). An invoice will be sent to you shortly after registration.

Register by sending an e-mail to Elise Carabédian, e.carabedian@eupave.eu by Friday 7 June 2019.
For non-members and non-partner, please include the name, address and VAT number of your organisation in your e-mail.

For those who decide to become a Partner of EUPAVE after the workshop, the participation fee will be deducted from the yearly partnership due of 1 000 EUR. For more information, please contact Ms. Elise Carabedian, e.carabedian@eupave.eu.
