Ms. Isabel García Muñoz, MEP

Ms. Isabel García Muñoz is a Spanish MEP of the S&D group. She is serving at the European Parliament since 2019, where she is vice-chair of the Committee on Budgetary Control and member of the Committee on Transport and Tourism. She graduated in Telecommunications Engineering from the University of Zaragoza and she also worked for the Institute for Engineering Research of Aragon's Department of Biomechanics.

Mr. Stéphane Nicoud, President, EUPAVE

Mr. Nicoud works as Global Strategic Projects and Accounts Lead at Holcim. He is president of EUPAVE since 2013.

Mr. Luc Rens, Managing Director, EUPAVE

Mr. Rens is consulting engineer at FEBELCEM, the Federation of the Belgian Cement Association. He is Managing Director of EUPAVE since 2009.

Mr. Jim Mack, P.E. Director Infrastructure – Market Development, Cemex, USA

Jim Mack has 30+ years of pavement engineering experience. He is a registered Professional Engineer in the State of Illinois and Texas. He is active and holds leadership roles in numerous industry associations and national / state organizations across the US.

Mr. Claus Kondrup, Senior Expert, Unit A3, Adaptation Unit, DG CLIMA, European Commission

Mr. Claus Kondrup is a Senior Expert with almost 30 years of experience at the European Commission. He works at DG CLIMA, precisely at the Adaptation Unit A3, in the field of climate action including adaptation to climate change, climate proofing, and climate mainstreaming.

Mr. Christophe Nicodème, Director General, European Road Federation

Mr. Nicodème is Director General of the European Union Road Federation (ERF) since 2008. ERF is a non-profit organisation representing the European Road Infrastructure sector and acting as a platform of dialogue and research for road mobility issues, with particular focus on road safety, road asset management and sustainable and smart mobility.
