It is our great pleasure to welcome you to the 15th International Symposium on Concrete Roads in Málaga.

For the third time, Spain hosts this key event for the concrete road community.

From 3 to 6 November 2026, we gather under the motto “Building the future on resilient concrete pavements,” highlighting our shared commitment to durable, heavy-duty, and climate-resilient infrastructure, and to the transition towards climate neutrality.

This Symposium offers a valuable opportunity to exchange knowledge, discover the latest innovations, and connect with experts from around the world.

We wish you an inspiring and successful Symposium and a pleasant stay in Málaga.
